One of the State requirements is that you must currently be able to financially support your family on earned income. Are you currently receiving any form of government assistance such as food stamps, WIC, Section 8 housing, disability or unemployment \_\_\_.

The Pre-licensing process can take 4-6 months or longer depending on several factors. Are you able and willing to commit this much and effort \_\_\_.

Once you complete the process and the State grants you a license then the process of selecting an appropriate individual for you would begin. We make no promises and cannot give you a time frame for when a placement may be made, as there are too many factors outside our control. All of this would be explained to you in detail during the pre-licensing process.
